The New York Times–bestselling, non-nonsense guide to becoming a better leader through 7 key behaviors, based on a mix of military and corporate training. Leadership is not about job titles—it’s about action and behavior. “Sparks” are the doers, thinkers, innovators, and key influencers who are catalysts for personal and organizational change. But these extraordinary individuals aren’t defined by the place they hold on an organizational chart—they are defined by their actions, commitment, and will. Leadership experts Angie Morgan, Courtney Lynch, and Sean Lynch show how you can become a Spark by cultivating seven key leadership behaviors. Grounded in the latest research on leadership development, this fresh, accessible road map is packed with real-world stories from inside companies like Facebook, Google, and Boston Scientific, and from the authors’ own high-stakes, challenging experiences serving in the U.S. Armed Forces. With SPARK as a blueprint, anyone can become a catalyst for change, and any organization can identify and develop Sparks. “A myth-destroying book that will make you rethink both the theory and practice of leadership.”—Daniel H. Pink, #1 New York Times–bestselling author of *Drive* “If you truly want to become a Spark in your organization and in your life, I urge you to read this book now.”—Mike “Coach K” Krzyzewski,

head coach, Duke University Men's Basketball "These authors are not only great leadership thinkers, but they have all led people in challenging circumstances.... Trust them to take you to a new level."—Brigadier General Thomas A. Kolditz, U.S. Army (Ret.), director of the Ann and John Doerr Institute for New Leaders at Rice University

There has never been a more important time -- in corporate America and in the American military -- for leaders, at all levels, to understand how to invest in people. This book teaches you to do just that. Written by a 27-year Army Colonel, veteran and leader of more than 5,000 troops in the 1st Brigade of the 101st Airborne Division, *It's Personal, Not Personnel: Leadership Lessons for the Battlefield and the Boardroom* offers true stories and practical frameworks you can apply to the people in your organization and on your team. Whether from lack of will, experience or training, many leaders pay lip service to investing in people. Instead, they manage them on spreadsheets and in HR-focused software applications without personal consideration, failing to truly know them, care for them or establish healthy, fulfilling environments in which they can work and serve. Leaders focus on task completion, blind to the true effect it has on a person and his or her family. Those appointed to guide and delegate -- in business and in the armed forces -- often miss the opportunity to create a people-centric environment where productivity and efficiency will improve. It's less about making mechanics, IT managers or soldiers better at their trade, and it's more about making people better people. Explore the intricacies of personal connection in the workplace by following Rob Campbell through his own

experiences leading large teams in high-stakes work, and then learn to apply those insights to your own work as a leader. It's all too easy for leaders to misplace their primary focus on customers and investors, and even on their own over-committed schedules, when the most important thing they could be doing is investing in their people. By understanding that leadership is personal, you will begin to understand that all workplace challenges -- productivity issues, efficiency issues, turnover problems, lack of employee engagement -- all come down to whether employees are being acknowledged, valued and understood. Through his own applications of people-first processes, Rob Campbell will instruct you in how to reinforce your team, identify weaknesses to be strengthened and expand your definition of conscious leadership. If you are a leader in any capacity, whether in the boardroom or on the battlefield, this book will teach you to embrace the soul of powerful leadership: guiding and empowering people to enable every teammate to play to their greatest strengths and aptitudes. It's time to understand what makes your people tick, and to lead them in new and better ways. Most books on leadership deal with the challenges of leading others. What they fail to address is the most critical challenge of all: leading oneself. Before you can successfully lead others, argues Danny Lanier, you must take control of your own life. "The Power of Personal Leadership" shows you how to . . . Figure out what your goals are Take ownership of your decisions Overcome obstacles Deal effectively with change . . . And much more As you begin to use the techniques presented in this insightful book, you will develop a whole new way of

looking at the world-and your place in it. Start today “A riveting look at the birth of a new science.” —Daniel H. Pink, author of *Drive* When he was eight years old, Dan Hurley was labeled a “slow learner” because he still couldn’t read. Three years later, he had become a straight A student. Until the publication of a major study in 2008, psychologists believed that intelligence is fixed at birth, that IQ is like a number tattooed on the soul. The new study showed that people can increase their “fluid” intelligence through training. Hurley, who grew up to become an award-winning science journalist, first explored the topic in *The New York Times Magazine*. In *Smarter*, he digs deeper by meeting with the field’s leading researchers—and becoming a human guinea pig. After just three months of playing computer brain-training games, joining a boot-camp exercise program, learning to play the Renaissance lute, practicing mindfulness meditation and and even getting his brain zapped in the name of science, Hurley improved his fluid intelligence by sixteen percent. With humor and heart, *Smarter* chronicles the roiling field of intelligence research and delivers practical findings to sharpen the minds of children, young adults, seniors, and those with cognitive challenges. *The 8 Mandates of Personal Leadership* provides a unique framework for students to take charge of their lives, lead themselves, and make a positive difference in the world. It offers a detailed approach to reap the benefits of becoming a true Personal Leader. No matter your current situation, each of the eight mandates can be applied to your life. In this updated edition of the *LEAD NOW!* handbook, internationally recognized leadership coaches John Parker Stewart and Daniel Stewart provide

busy leaders with hundreds of sparkling bits of insightful advice for continuous improvement. Lead yourself to success—and others are sure to follow “For leaders looking for a plan of ‘Why, What, and How’ to become a better leader, the answer is between the covers of this book.”

—Chester Elton, New York Times bestselling author of *The Carrot Principle*, *The Orange Revolution*, and *All In* “Ever wish you could be more confident, more engaged, or more productive in your life? Look no further. All the concepts and tools are right here.” —Ryan M. Niemiec, Psy.D., Psychologist and Education Director, VIA Institute on Character “Self-reliance, courage, confidence, emotional self-awareness, and perseverance encompassed into one leadership concept.” —Garee W. Earnest, Ph.D., Professor, The Ohio State University “Bryant and Kazan’s groundbreaking work challenges us to take the first small steps of what will be for many a lifelong journey of self-discovery from the inside out.” —R. Dale Safrit, Ed.D., Professor, North Carolina State University “Andrew and Ana’s . . . research, insights, and experience provide a practical tool-kit on how you can choose to live your life and your work and influence others to do the same.” —Philip Beck, Chairman, Dubeta “It is generally accepted in the business literature that the heart of leadership is leading self. I believe that leading self is also the path to being a ‘responsible’ leader. The important contribution made by *Self Leadership* is that it tells you what to do if you want to get better at leading self. Read this book if you desire to be more effective as a leader and remember, “You don't have to be bad at leadership to get better.” —Stephen C. Lundin

Ph.D., author of the bestseller, *Fish!* In an ever-changing world, it is important to remember that we can control our reactions and responses to other people and the situations that arise in life. *Accountability Now!* shares ways we can all learn to become more resilient in the face of change, find greater happiness, and create an environment where others can learn to do the same. Mark Sasscer, founder and CEO of an international leadership consulting and training firm, relies on ten principles of personal leadership in order to teach others to take ownership for choices, decisions, outcomes, and consequences. While exploring these ten principles that encourage others to be authentic, model high performance, initiate courageous conversations, and mentor others, Sasscer shares not only the stories of over forty leaders who have faced adversity and change, but also details his own personal journey as he coaches others on how to improve their own outcomes in life. With a focus on building healthy relationships where expectations are realistic, Sasscer guides leaders of all types on a path to creating the kind of self-awareness that results in a successful professional career, peace of mind, and ultimately personal contentment. Great leaders are take-charge, can-do, action-oriented individuals who work hard to make a difference. However, in today's busy, nonstop work environment, many leaders, like everyone else, feel overwhelmed, frenzied and frustrated. All the hard work in the world will not alleviate such feelings. Leaders require something more. Executive leadership coach Joelle K. Jay teaches beleaguered executives to focus on their "personal leadership" strengths and capabilities as a way to integrate their personal and professional lives, and come out

ahead in both areas. In her insightful book, Jay presents 10 practices leaders can pursue to achieve this vital integration. getAbstract recommends it as a steady, useful read for leaders who want to align their work and their personal lives.

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3.

Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.
